CSK1001 Rev 1.201

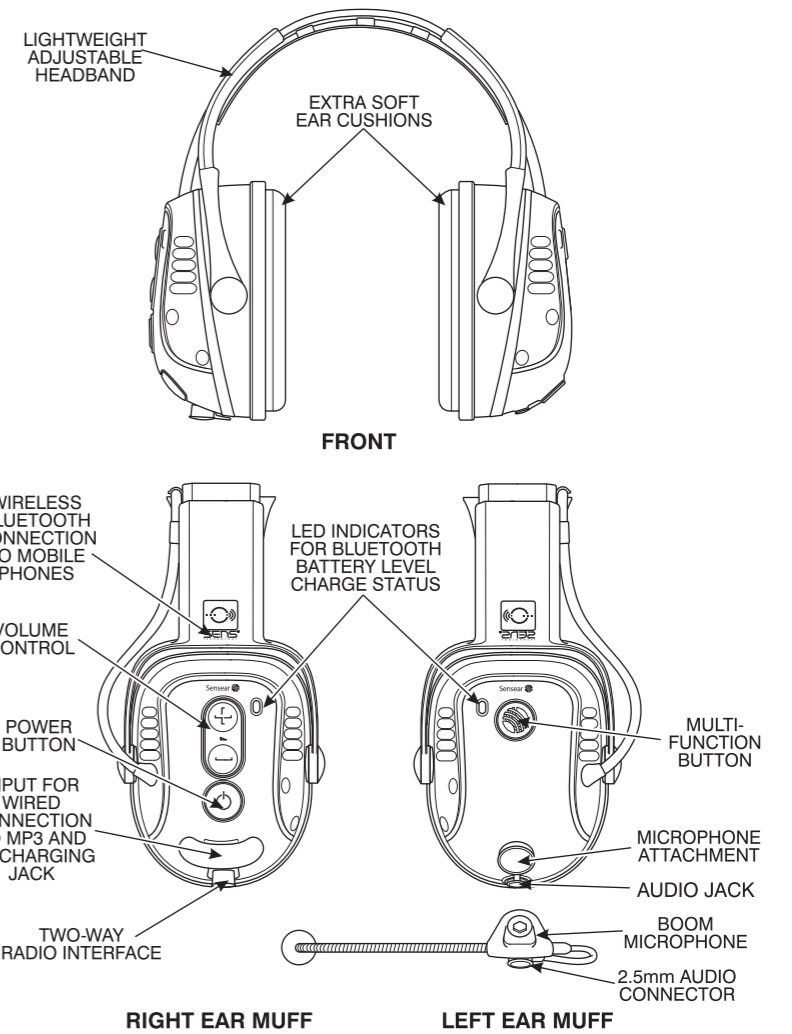

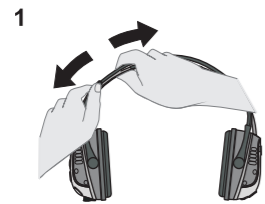

Figure 1: Sensear SM1/SM1x Major Components

It is recommended that the wearer should ensure that;

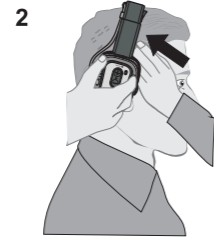

- The ear muffs are fitted, adjusted and maintained in accordance with the manufacturer's instructions
- The ear muffs are worn at all times in high level noise conditions.

If the above recommendations are not adhered to, the protection afforded by the ear muffs will be severely impaired.

Ear Muff Fitting Instructions

Adjust the headband by pulling the centre band out equally on both sides

Ensure no hair is inside the muff ear cushions.

Fit the ear muffs over the ears ensuring a tight fit around the ears

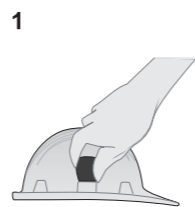

Ensure the muff completely surrounds the ears

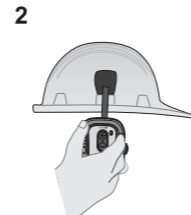

Press down on the headband to obtain a snug comfortable fit.

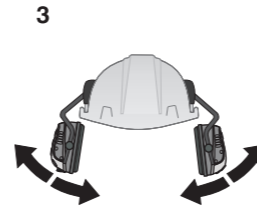

Ear Muff Fitting Instructions - Helmet Mounted

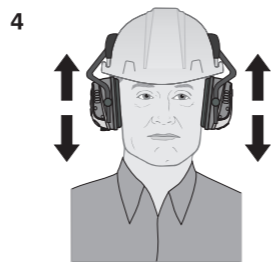

Attach the adaptors to each side of the helmet by sliding them into the slots.

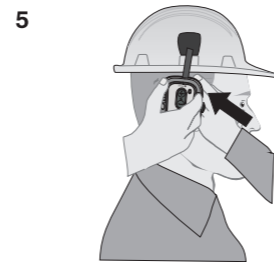

Attach the earmuffs by sliding into the adaptors.

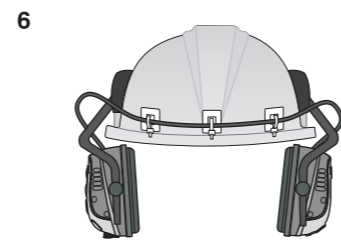

Ensure the earmuff is firmly attached by lifting the arm up and down

Place the helmet on the head and adjust by sliding the earmuffs up and down.

Earmuffs should seal firmly against the head. For best results remove hair from under the earmuffs.

3 x Adhesive Mounts and ties are included to secure the earmuff cable to the helmet. The mounts should be evenly placed around the rear outside of the helmet. Fit the tie through the mount. The cable should be feed through each tie and secured in place.
